

THE VECTOR PROGRAMME

Objective:

A programme for students in Mathematics where they go to secondary schools in the local area to work as teaching assistants in Mathematics. The intention of the organization is to increase the interest in Maths/other STEM-subjects in school, by providing assistance in class among pupils in lower and higher secondary school.

Participants:

students in Mathematics.

Partners:

Secondary school students.

Timing:

3-6 weeks.

Learning outcomes:

Not defined.
